## SPEAKER LEAVES PLATFORM WHILE ANTHEM IS SUNG

English Labor Agitator Makes Inflammatory Speech at Windsor.

DEFIES ARREST BY POLICE OFFICERS

Bitter Toward Politicians and Capitalists and Belittled King of England.

Windsor, Ont., Sept. 22.—Tom Mann, the English labor agitator, left the speaker's platform in the Windsor Athletic club at dusk Saturday night, as John R. Mason, president of the trades and labor council, said, "God Save the King."

Mason's son followed a revolutionary speech by Mann, in which he criticized laws as the work of "dirty" governments, derided the king, and invited to speak to working men of Windsor by the union of the city. He was especially bitter toward politicians and governments, who, he declared, were controlled by the capitalist class.

"What about King George?" asked a voice.

"You people over here" roared the speaker, "place too much importance in King George. He is not of much importance as the president of the United States, the Emperor of Germany. He has nothing to do with ruling the country. The capitalists rule these nations, and there is no reason for it. The working men have no voice, if they want to express it, they must go to the platform and attempt to make a more conservative appeal to the audience and modify some of the more extreme of the speaker of the evening."

It was during the singing of the national anthem that Mann left the stage.

## WILL INTRODUCE MINING ACT FOR CANADA

Ottawa, Sept. 22.—Mining regulations are provided in a bill to be introduced at the next session of parliament by Louis Gougeon, secretary of state and minister of mines. It is expected that a mining law would be passed in the statute books.

The system of mining regulations now governing the administration of the mines will be abolished.

The number of accidents in the various provinces of Canada is greater than that in any other country in the world. While last year the death toll in Great Britain, with over 1,000,000 miners employed, was only 1,491 in 1909, in British Columbia it was 1,491.

In Ontario it is computed that one miner is killed or injured every third day. The difficulty encountered in introducing a Dominion mining law is found in the provincial rights.

The mining laws at present in force in Nova Scotia, New Brunswick, Ontario and British Columbia were passed before Confederation while Alberta only a year passed a new provincial mining law.

## DETECTIVES SUSPECT CIVILIAN WORKMEN

Counterfeiting Plot Believed to Have Been Assisted by Outside Persons.

London, Sept. 22.—Detectives who have investigated the facts of the counterfeiting plot at the bank of the city in the prison at Perth, Scotland, suspect that civilian workmen, employed in connection with the building of a breakwater, assisted the convicts, by supplying them with the necessary apparatus.

Several residents of the district have in their possession bills which they preserve as curiosities, refusing to part with them at twice their face value.

The prison contains 400 convicts, including about a score of women prisoners. The officers carefully searched their cells, but no trace of them has been discovered.

## IRISH BARON DEAD; SUCCEEDED BY UNITED STATES PRIVATE

Dublin, Ireland, Sept. 22.—Baron De Praslo died today at his country residence, French park, county Roscommon. He was 82 years old and had been a member of the House of Commons for 20 years. The successor to the peerage is the Hon. Sir John De Praslo, 31 years old, the baron's only son by his first marriage. He served for several years in the British army, resigning his commission to enlist as a private in the 1st Buffs, the 1st Buffs Infantry, in the company of 20,000 acres in county Roscommon.

## Six Year Old Lad Is Killed By Rifle in Hands of Brother

Fatal Shooting Accident Occurred Four Miles South of Strathcona Sunday Afternoon—Inquest Deemed Unnecessary by Coroner.

A fatal shooting accident occurred yesterday afternoon about four miles south of Strathcona when Frederick Albert, the six-year-old son of Henna Albert, was killed by a rifle in the hands of his older brother. The boys were alone in the house at the time, the parents being in town, and were looking with the gun when it was accidentally discharged. The bullet passed through his body and he expired a few minutes later.

Word was received at the Mounted Police barracks and an officer in company with Coroner Dr. Brailwaite visited the scene of the shooting and decided that an inquest was unnecessary.

The parents of the boy were prostrated when informed of the death of their son. Henna Albert, father of the boy, resides on the farm of Judge Tipple on the N. E. corner of 88-50-25, four miles south of the city.

The funeral of the unfortunate lad will take place Tuesday afternoon at 2 o'clock at Ellersley cemetery where interment will take place.

## Thousands See Ex-Mayor Gaynor Laid to Rest

New York, N. Y., Sept. 22.—A moving sea of humanity stretching away from the New York city hall as young and old, thousands strong, gathered to play what part they might in the public funeral of William J. Gaynor, late mayor. Nearly 100,000 visited the body as it lay in state, leaving the rain for hours in a slow moving line. The rain had ceased at break of day although it threatened a drizzle at times as the morning wore on. The stretch of Broadway leading south from the city hall to Trinity was easily maned by police in preparation for the body's passing shortly before 11 o'clock.

After the service the funeral procession was to move slowly over Brooklyn bridge and thence to Greenwood cemetery, Brooklyn, for interment.

## A. & G. W. REGISTRATION TO COME UP IN HOUSE TUESDAY

Important Measure Is Looked Forward to With Keenness on Both Sides of House—Dr. Stanley of High River Will Resume Debate on Speech From the Throne.

The Alberta legislature will convene at 4 o'clock this afternoon, when Dr. Stanley, of High River, will resume discussion on the reply to the speech from the throne. The order in which other speakers will follow has not been determined. It is probable that the speeches will be short, as the Alberta and Western Canada legislation, which is expected to come before this house on Tuesday afternoon, will overshadow all other issues.

There will likely be some discussion regarding the methods pursued by officials of the department of the interior in providing elections. The public will be enlightened as to the extent to which the department and others were threatened and intimidated by the representatives of Hon. Robert Rogers in the interior portion of the Dominion. In the Peace River constituency, which is now presumably an "uncontested center," the official bludgeon was used unmercifully. Like the prophet of old, whose name was Joshua Fletcher, some stand inspector, proclaimed from the public platform that the official wheels would stand still pending the election.

## News Boy Loses Leg When Run Over by Street Car

Twelve-year-old Albert McLaren Attempted to Cross in Front of Car on 24th Street—Leg Amputated at Hospital—Doctors Hold Out Hope for Recovery.

Attempting to pass in front of a fly car in Twenty-fourth street this morning, Albert McLaren, aged 12, slipped on the wet pavement and fell in the path of the rapidly moving car. Before the motorist could apply the brakes the wheels of the forward truck passed over the boy's body at the hip, severing the left leg.

A call was sent to Connolly and McKinley and their ambulance carried

young McLaren to the Misericordia hospital. He was at once placed upon the operating table and Doctors Holmes and Ferguson made heroic efforts to save his life. According to the doctors there is a bare chance of doing so.

The boy is a son of Robert E. McLaren, 247 Sutherland avenue, manager of the Edmonton Vinegar Works, and was on his way to his home after delivering a lot of newspapers when the accident happened.

## ELEVATORS WILL BE READY NEXT WEEK

Directors of Co-operative Elevator Company Confer with Cabinet Ministers With Satisfactory Results.

The permanent directors of the Alberta Farmers' Co-operative Elevator company waited upon the cabinet ministers this morning and had a very satisfactory interview on the elevator question. They submitted complete reports showing the cost of each one of the 42 elevators which now form the line. Seven of the elevators are now receiving grain and 12 will be in operation before the end of the season. The amount of money which the government will be required to advance will be approximately \$300,000. The government will appoint an inspector who will visit each elevator and submit a report thereon. The directors stated that the co-operative elevator plan was working far better than they anticipated and they were exceedingly well pleased with the result of their meeting with Premier Sifton and his cabinet.

**WANTED—PEOPLE AT MY OFFICE AT 2 o'clock, to go out to the new town "Summerland." Lots \$275; \$10 cash and \$5 a month, or \$25 cash and \$25 every 4 months; final payment, \$28 months. S. F. Munson, Broker, 35 Jasper Ave. E.**

## POLICE CHIEF WILL RESIGN

Naples Chief Officer Scored for Permitting the Growth of Camorra.

Naples, Sept. 22.—The chief of police of Naples has been asked to resign as a punishment for not combating the growth of the Camorra, which is now quite as powerful as it was before the trial and conviction of a number of its leaders at Viterbo for two murders.

The Camorra is still in league with the police, as has been proved by some recent incidents. A short time ago a local police official was accused of favoring the white slave traffic. He escaped to America, taking with him two young girls. He is now a notorious Camorrist and is known as Totino San Domenico. He was engaged as a spy by the police and immediately organized a gang of pickpockets who worked mostly on the street cars and got rid of all his enemies by denouncing them to the police and accusing them of thefts which had been committed by his accomplices.

## Cured Diseases of the Kidneys

And is Depended On Right Stomach and Liver Disorders.

Once Dr. Chase's Kidney-Liver Pills are introduced into the family and their efficiency becomes known they are usually found too valuable to do without. For everyday ills arising from liver and bowel disorders they bring relief promptly, and when complicated diseases of the kidneys and liver develop they often prove a successful cure after doctors have failed.

As an illustration you may read the following, which was received a few days ago:

Mrs. John Wright, 53 McGee street, Toronto, Ont., writes: "We have used Dr. Chase's Kidney-Liver Pills for ten years, and would not be without them. My husband suffered from kidney trouble, and after failing to obtain relief from several doctors without receiving any benefit, tried Dr. Chase's Kidney-Liver Pills, which worked a complete cure. Since that time we have used them for all stomach and liver disorders."

One pill a dose, 25 cents a box, all dealers, or Edmundson, Bates & Co., Limited, Toronto.

## CARSON SCORED BY LIBERALS FOR SECTION

Newspapers Say Government Should Take Drastic Action to Prevent Speeches.

COULD BE INDICTED FOR TREASON AND FELONY

Daily Chronicle Suggests that His Name Be Scored off Privy Councilors.

London, Sept. 22.—The speeches of Sir Edward Carson in what is called his "campaign of sedition" in the north of Ireland, have become so belittled that the liberal newspapers are discussing the question as to whether the time has not arrived for the government to take drastic action.

Sir Edward's latest outburst on Saturday, after inspection of the various contingents of the Ulster volunteers, when he said he had pledged and promised from some of the greatest generals in the army, that, if necessary, they would come over and help the unionists of Ireland to keep the old flag flying, surpasses all his previous utterances.

The Chronicle this morning asks how much longer Carson will be permitted to preach his open sedition throughout Ulster, and points out that he could be dealt with under the treason and felony act.

The Chronicle also suggests that the government should score off Sir Edward and his followers from the list of privy councillors.

Supporting him, are probably saying for such action as they might recommend in the hope that they might prevent themselves the victims of persecution by their political opponents.

Now, for the next ten days we would like to take the matter up with you, and if, after considering our proposition, you do not see the same light as we do, we will be perfectly satisfied to drop any such business for the present.

## AMERICAN BANKS MAY INVADE THE ENGLISH FIELD

American Currency Bill to Provide for Establishing Branches.

London, Sept. 22.—Discussing the American currency bill in its financial columns this morning, the Daily Telegraph forecasts a possible invasion of the banking field here by American banks as a result of the clause in the bill providing for the establishment of branches in foreign countries.

"This clause," says the Telegraph, "opens up a very large question and one which may become somewhat embarrassing for London banks now holding the probable agencies for New York, Chicago and other American banks. Any addition to the keen rivalry already existing, would, of course, be unpopular in London itself, but the invasion now threatened would be particularly unwelcome, in as much as it might be very distasteful and injurious to existing arrangements."

It is said London banks are already accepting bills up to the limit of safety and American branches in accepting bills through inexperience, both for themselves and each other, would create a condition like the medium of another outside supply of artificial credit.

Banking authorities here are said to be studying the question both as to how the newcomers should be treated and whether any retaliation on the other side should be attempted.

Time flies pleasantly with Wrigley's **SPEARMINT**

As you roll this refreshing morsel under your tongue, you are soothed and relaxed. The fresh mint leaf confection is most delicious and least costly. It steadily improves your teeth, breath, appetite and digestion.

## REVENUE CUTTER HAD MIRACULOUS NARROW ESCAPE

Annual Cruise of "The Bear" Almost Ended With Fatal Results.

BOAT SURROUNDED BY ICEBERGS

Vessel Became Unmanageable in Grip of Ice Pack and Drifted for a Night and Day.

Washington, Sept. 22.—The revenue cutter Bear, moored to a menacing ice pack and completely wedged in by heavy flocks of Arctic ice, drifting in a swirling current towards the north pole, narrowly escaped destruction on her annual cruise from Nome to Point Barrow, Alaska, America's most northern settlement.

In a report to Secretary McAdoo, Captain J. Hallinger, commanding the Bear, reports harrowing experiences of his vessel, unmanageable in the vice grip of the ice pack and trusting to favorable winds to reach a point of safety in the cusp of the ice, the cutter drifted helplessly with the current for a whole night and day at the rate of five or six knots an hour.

"No apparent danger was threatened by the vessel in the pack," reported Captain Hallinger. "But she encountered tremendous swells of the current and narrowly escaped destruction against the ground ice four or five miles north of Point Barrow. She was entirely unmanageable and her situation for a short time seemed critical. She finally drifted broadside through between two heavily grounded bergs with but a few feet to spare at either end and worked around into clear water and anchored to the east side of the point."

This was the Bear's annual cruise on mission of justice and mercy, enforcing the law and punishing offenders through the United States commission.

Another Coon Meets With His Reward  
Louisville Negro Annoyed Woman and the Results Reported to Judge Lynch Methods.

Louisville, Miss., Sept. 22.—Because he frightened a white woman in her home by his strange actions, Henry Crosby, a coon, was lynched some time during Saturday night. Officers searching for him found his body hanging from the limb of a tree yesterday. The coon went to a farm house near here yesterday and questioned the woman as to whether her husband was present. The woman said that when the negro learned her husband was absent, he acted peculiar. She took her baby and ran to a neighbors house where she reported the affair.

Lord and Lady Clarence Dargat—Lord and Lady Clarence Dargat, who spent last week in Edmonton, left last night for Calgary, where they will spend a few days before a mission of justice and mercy, enforcing the law and punishing offenders through the United States commission.

SNOWFALL BREAKS RECORD IN MINNESOTA  
Duluth, Sept. 22.—A record unequalled since the establishment of the weather bureau in 1883 was made yesterday, when snow fell at nearby points on the northern part of Minnesota and around the shores of Lake Superior. The earliest previous snow fall was recorded September 24, 1907. Windy storms prevailed in the vicinity of Port Arthur, Ont., and Grand Marais, Minn., where the ground was blanketed with snow.

The average temperature at Duluth was 35 degrees.

EVERYBODY HAS A FOUR-FOOT SIDEWALK in Summerland: main street six feet, \$10, \$25, or \$50 secures a lot. Free auto trip every afternoon 2 p.m. See Page 9. S. F. Munson, Broker, 35 Jasper Ave. E.

# Split 40 Cords At Age Of 85

Thankful to the Medicine  
That Gave Him Ability  
For the Task.

## A VERY INTERESTING CASE.

Four men of eighty-five years of age can boast of much else but poor health and falling strength. And such was the condition of Mr. Bend, Marsh, who is known to every soul in the neighborhood of his home at Linn Lake, Ont.

"Quite uncollected," writes Mr. Marsh, "I wish to say how I have been bothered for years with stomach trouble. I tried everything I could think of without benefit. I was terribly afflicted with swelling and gas, and had much distress between meals. I tried everything I could think of, but without benefit. Then I was recommended Nervine. My, but Nervine was a power of good to me. It was a new pain of me, so that within the last three weeks I have been able to split about forty cords of stove wood, and will always stick to Nervine and will always recommend it and would like to meet anyone and convince them it is doubt as to what Nervine has done for me."

For sour stomach, nausea, belching of gas, cramps and similar troubles, Nervine is more helpful in the night, holding over so much pain and distress as Nervine. Large family size bottles, 50c; small size, 25c, at all drug stores and dealers or The Caldwell Co., Buffalo, N.Y.

# ENGLAND MAY NOT ENTER BERLIN OLYMPIC GAMES

Sentiment Among British Sportsmen is  
in Favor of Withdrawing from  
Organization.

London, Sept. 22.—If the wishes of a majority of the British sportsmen are followed, Great Britain's last appearance in the Olympic games would be at Berlin in 1916. This sentiment is steadily growing, and public opinion would favor withdrawing from the Olympic organization now but for two reasons.

First: The Germans might consider the withdrawal as due to anti-German prejudices, and second, other nations might think that, after the poor showing the team made at Stockholm, Great Britain was unable to hold its own against the teams of other countries.

The policy advocated by the influential men in the English world of sports is to send a representative withdrawal delegation to Berlin and then withdraw gracefully. The reasons behind the policy lie in the belief that the Olympic games are becoming semi-professional contests, and that instead of fulfilling the purpose of their founders which was to create international friendships, they have had the opposite effect.

The response to the appeal for 1900 as an Olympic team was so small that the British athletes continue to be disappointed. Less than \$40,000 has been subscribed. The discussion over the Olympic games has brought forth more expressions of opinion against the Olympics than favorable to them, and the opposition coming from all university men.

# FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs,"  
can't harm tender stomach,  
liver, bowels.

Every mother, after giving her children "California Syrup of Figs," finds that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without any pain.

When, for instance, feverish or bilious, stomach sour, look at the tongue. Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the sticky, coated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When this little system is full of cold, throat sore, has stomachache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know its important today as a sick child to a healthy one. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages, adults grown-up printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

EVERYBODY HAS A FOUR-FOOT SIDE-walk in Summerland; main street six feet, \$10, \$25, or \$50 secures a lot. Free auto trip every afternoon 2 p.m. See Page 9, S. P. Munson, Broker, 30 Jasper Ave. E.

# PROCURERS ARE REMANDED TO HIGHER COURT

Powell Faces Serious Charge  
Which May Mean Long  
Term in Prison

## FASHIONABLES IN POLICE COURT TOO

Forgers Remanded Until Wednesday for Trial—Woman in Drunks Lined.

John and Marie Powell, the former arraigned on the charge of procuration preferred by Detective Burbeck, was arraigned in police court late yesterday afternoon. On account of the serious nature of the crime, Inspector Burbeck requested Powell for trial in a higher court. It is estimated, Powell is liable to a penalty of five years at hard labor. A news concerned in the case has left the town and is under police surveillance in another city.

Four stylishly dressed young women were arraigned in police court this morning on the charge of being inmates of a disorderly house referred by Detective Burbeck. One of the quartette, Mrs. D. M. Smith, was also charged with being the keeper. The others, Mrs. Smith, Edith Neilson, seen in police court before, and a Mrs. Spencer had their cases remanded for trial on Tuesday morning. Bail was fixed in each case at \$50. A. C. Bell ended guilty to being a frequenter of the house and was fined \$20 and costs.

Arthur Hynes, charged by his wife, Louisa, with non-support, was released on his own recognizance for appearance in court September 29.

J. Sandberg, arraigned on the charge of forcing a check with the name of G. Hoffman was remanded on \$100 bail for trial Tuesday morning. Robert H. Arnold, was also remanded on the charge of forgery for trial the same day. His bail was fixed at \$500.

Jack South, again appeared in court this morning to answer to the charge of being a vagrant, and with having no fixed means of support. And again did Jack go down the back stairs only to elude them after another hearing next Wednesday.

Joe Harrison, charged with being a vag, and after a suspended sentence when he explained matters satisfactorily to his worship.

With brilliant tresses of the over-night variety, Jennie Smith left her color to the murky looking lines of drunks in police court this morning and was penalized to the tune of the usual four weeks in the work.

Edward Sullivan pleaded guilty to "Smoking opium." Sullivan's admission that he had smoked opium in the past, in such cases the informant who prosecutes receives half the fine.

# \$35,000 WAREHOUSE IS NOW COMPLETED

New Offices of Canadian Equipment & Supply Co. Are Thoroughly Modern in Every Way.

With the completion and occupation of the new Canadian Equipment and Supply company's building on Ninth street, another modern office and warehouse building is added to the ever increasing structures which are being built in the city all the time. This new building into which the Canadian Equipment and Supply company has just moved their stock is the largest and most modern structure and stands on a plot of ground 100x120. The warehouse is three stories in height and the total cost of the structure was \$35,000. The entire ground floor is occupied by the Canadian Equipment and Supply company with offices and warehouse while the two floors above are occupied by Christie and Kent for storage purposes. The front of the building is given up to the offices the interiors of which are finished entirely in heavyboard for which this firm is the agent in the city. These include general office, accountant's office and the private office of Mr. Lewis, vice-president and manager of the company. Behind the general office is a room set apart for the use of railway contractors while they are in the city during the fall and winter.

Considering the fact that this firm only commenced operations in the city last April, they now do a considerable volume of business and it is expected that this year the turnover will be in the neighborhood of \$250,000.

The firm handles all the modern lines relating to railroad and general contracting, bridge building, steel erecting, quarries, factories, mines, blacksmiths, waterworks plants, etc. and also the complete outfitting of a McAlister, president and general manager; J. Leslie Bell, secretary-treasurer and Alex. Low, vice-president.

BLUE LABELS WIN FIRST PRIZE. In the first annual contest of the Blue Labels and the Red Seal, played Saturday, the Blue Labels won by a score of seven to four. The game was the first of a series of three played for the Shaw trophy. The next game will be played this afternoon.

WANTED—PEOPLE AT MY OFFICE AT 2 o'clock, to go out to the new town "Summerland." Lots \$275; \$10 cash and \$25 a month, or \$25 cash and \$25 every 4 months; final payment, 28 months. S. P. Munson, Broker, 30 Jasper Ave. E.

 Readers of The Capital are requested to favor the management by reporting any irregularities in delivery.

## BREATHLESS SILENCE ACROSS THE HALL.

The critics of Premier Sifton and his administration will, within a few hours, be compelled to concede that he and his colleagues, in their solution of the Alberta & Great Waterway problem, have accomplished a feat of statesmanship that fully justifies the confidence of all his followers. When the question is finally disposed of, as it will be this week, it will no doubt be found that the province has not lost a penny; that no interests have been sacrificed or jeopardized; geographical partisanship will undoubtedly be avoided and Alberta will be in better position in the matter of railway facilities to all points of the compass than any of her sister provinces. With the unanimous and enthusiastic support of the liberal members of the legislature, Premier Sifton will be able to put through his railway program speedily and without friction. Of course the opposition will step in and say that they were always in favor of precisely that kind of a program and that they had "forced" the hand of the premier and his followers. This is their stock representation which they have applied to every measure that they hated to support, yet feared to assail. When Mr. Michener and his followers discover that the province has never actually paid one cent of interest on the Waterways bonds and will never have to pay one cent, they will have to seek new props. The "thousand dollars a day" talk that caught so many votes for them in the "enlightened centers" will die out to a convulsive gasp.

Far ahead of the progressive procession as they are, Premier Sifton and his supporters do not intend to sit down on the railway right-of-way, as it were, and wait until they are overtaken by the laggards in the march of progress. The premier has frequently announced that his railway policy would be pursued until every section of the province is served and his move in the Waterways matter will be convincing proof that he will live up to this promise as he has to others. After that, breathless silence across the hall. And will someone please page R. B. Bennett?

## AN OPPORTUNITY FOR THE MEMBERS FROM THE "ENLIGHTENED CENTRES."

The present legislature will be asked by the organized builders of the province to make several important amendments to the mechanics' lien law and the workmen's compensation law—amendments which will cripple, if not entirely destroy, the effectiveness of those measures enacted for the benefit of the working men of Alberta.

Under the provisions of the workmen's compensation law as at present in force, a workman who is injured or killed while in the discharge of his duty, whether guilty of contributory negligence or not, is entitled to compensation. That provision is practically the basis of the entire act, because an employer could always manage to show contributory negligence, whether it existed or not, especially in case the men were dead. That has been a bone of contention for years. The Alberta act, fathered by the Honorable C. W. Cross, guarantees compensation to the workmen, regardless of personal culpability. With this provision eliminated, the act, insofar as it could be of any benefit to the working men, would be worthless. Mr. Ewing, Mr. Tweedie, Mr. Hillocks and other callous-hearted workmen, who have shown their loyalty to the law, but doubtless see that it remains in force.

Another amendment suggested or demanded refers to the commencement of arbitration proceedings within nine months after death or injury. This should receive careful consideration by friends of labor.

A third amendment limits the total weekly payments to injured workmen, in cases of total disability, to the amount which would have been paid had death resulted. In other words, if a workman is disabled for life, he can receive in weekly payments no more than his heirs would have received had he been killed. Once the limit is reached, he is left to shift for himself. The government might consent to the payment of a lump sum at the time of disability, in lieu of weekly payments, so that the injured man could invest the money and utilize the interest. To hold that a man is worth no more when permanently disabled than he is when dead would be true conservative doctrine, no doubt, but hardly suitable for the present age.

The proposed amendments to the mechanics' lien law have already been referred to in the columns of the Capital. They are no less inimical to the interests of the working men than those stated above. The opponents of labor are busy; their true friends will come forward at the proper time.

It will be interesting to note, when the time arrives, what will be the attitude of the conservative members toward the amendments. When Mr. Michener, the leader of the conservative opposition in the Alberta legislature, in discussing the address in reply to the speech from the throne, stated that the election called in April last had found his party unprepared, and that he and his followers had only time to reach the "enlightened centers," the cities, in which conservatism had triumphed, he furnished opponents of labor with one of the most powerful of the arguments they are now using in their attacks upon the provisions of the mechanics' lien law and the workmen's compensation act. In explanation of this happening, Mr. Martin Woolf, of Cardston, said that the reason the conservatives had been successful in the cities and unsuccessful in the agricultural districts was because the farmers did their own thinking and could not be reached or influenced by ward heelers and bosses.

No doubt Dr. Stewart of Lethbridge, Mr. Ewing

of Edmonton and Mr. Campbell of Rocky Mountain, likewise the honorable members from Calgary, will at once emerge in opposition to the amendments. Coming as they do from the "enlightened centers" they should be able to detect instantly the purpose of the emasculations sought by the opponents of organized labor. Will they oppose the attempt?

## A PESTICATING NUISANCE AND A TORY TYPE.

According to the cablegram, which may or may not be exaggerated, Sir Edward Carson is determined to fan the hostility toward home rule into flame if such can be done, and is deliberately setting out to have himself so thoroughly identified as a spreader of sedition that his action constitutes a challenge to the government to take action against him as a rebel.

Looked at from this distance, Carson's action seems like the most unwarranted effrontery. The nation has endorsed home rule, the parliament has passed it, and even Ulster at the last election gave a majority in favor of it; but Carson says that he and those who think like him in Ireland will resist the popular will by force of arms.

Carson, evidently, would rather rebel than accept the will of the majority. The unionists, who sit him on, are in the same position. This is the truly conservative attitude; a reversion to the original Tory type which believes in the divine right of rulers—just so long as they are the rulers. The history of the world is made up of a series of struggles to take the power out of the hands of these self-elected autocrats. The Irish situation is merely a repetition of what has happened upon a hundred occasions when they have found themselves divorced from the power to set aside the popular will. Besides being a pestivating nuisance, Carson is a type.

## WHEAT PRICES AND THE ENORMOUS CROP.

While the world's total wheat crop this year is estimated to reach the unprecedented figure of four thousand million bushels, of which two hundred million comes from the Canadian west, seven hundred million from the United States and eight hundred million from Russia, constituting nearly half the world's supply, all of which comes against the market at once, farmers should not jump to the conclusion that the price of wheat is going to take a very large drop in the immediate future. To balance up the great wheat production, the corn crop in the United States is seven hundred million bushels short, and as corn has entered very largely in recent years into the human food class, the corn shortage may be counted upon to guarantee the wheat grower as good a price this year as last.

Prognosticating on the wheat market is counted in this day and generation one of the most hazardous of financial games and the man who dallies with this indoor sport usually finishes up on the outside, looking in. Nevertheless, if guesses are in order, the situation indicates that as good a guess as any at the present time is that the price of wheat is not likely to drop very much as a result of the present crop.

## JUST PARAGRAPHS

The opposition in the legislature evidently finds the old rule, to "abuse the other fellow," convenient at the present juncture, but it carries the proverbial influence to the case they have themselves.

## A SHORT DREAM—NUMERICALLY ILLUSTRATED

(Written for the Capital by No. 37509 M.T.M., 9379 126th Street, Corner of 37th Avenue, Edmonton, Alberta.)

A future historian will undoubtedly note with awe-stricken admiration the simplification introduced into life by American genius. Not only in his decimal system of weights, in his decimal currency, but in the humble process of street numbering has the American revealed to an astonished Europe how a little practical horse sense applied to the problems of life transforms the complex into the simple. Customs arose in Europe unconsciously and as a result lack of design mars and vitiates the product of European genius. True, in spite of this drawback, Europe can boast of a few achievements, but their value is largely discounted by lack of system. The ancients were brought up on a diet of poetry, not mathematics, and this explains the hopeless idiosyncrasies of old-world prejudices. Of what earthly use is poetry in the battle of life? What did Sophocles or Euripides do for Greece? What would it matter as far as business goes if all the productions of poetry perished tomorrow? Does poetry build a city? Does poetry prepare a man at the least cost so that he can produce the maximum of results with the minimum of effort? Poetry hinders rather than aids, because poetry, ninety-nine times out of a hundred, takes the longest instead of the shortest road in saying what it wants to say. It is the substitution of mathematics for poetry which is the foundation of American superiority. Waste is eliminated. Results are obtained at the minimum of effort, and a machine-like regularity takes the place of haphazard eccentricity. The new system of street numbering in Edmonton is a step in the right direction; too long already has civic mental energy been dissipated in the extra effort involved as a consequence of the archaic system which has been in vogue here but while we wish to compliment the authors of this necessary and desirable improvement, it is well to remind them that much remains to be done. Simplification of street numbering removes but one of the abuses we have inherited from an unscientific age. First our schools and parks should be numbered; already, in fact, even in old-fashioned England are the different houses at a public school known by their Nos. and it is of more importance here. What average citizen can tell a stranger off-hand how many parks and schools Edmonton has? The numbering system would render it possible for a mind to assimilate this extra knowledge with the least possible wear and tear on the brain. But of far more importance is the number of people. If the immensity of the undertaking in its entirety frightens even a civic No. 37509, at least let a start be made in the schools. We may then hope that the next generation will be educated up to a point where it will be possible to effect the reform universally. Just imagine the absurdity of struggling with the identification of a dozen Browns or Smiths. Names were originally invented to designate a person's qualities, viz., Swift Arrow, Barbones, etc. This use is absolute because progress based on mathematical precision tends to that perfect uniformity of character so much to be desired. But names originally conveyed some knowledge and therefore had a right to exist, but today the names Brown, Long, Short, etc., convey no meaning and in consequence efficiency demands a new system which will confine itself to rendering the service needed, i.e., that of identification. The females should add "H" after their number and the males "M," and probably children should be classified as "G's" (girls) and "B's" (boys). Upon attaining majority they would of course receive a fresh number. Should there be a danger of excessively high numbers causing confusion, there could be subdivisions made based on physical attributes. For instance when a child came of age, he could be classified as a "T" (tall), "S" (short), "B" (blond), or "D" (dark), and so on ad infinitum. But this involves no waste energy. You are introduced to Number 37516FTW, and you immediately know that the individual in a female, in statue tall and in status a widow. All disturbing curiosity as to her position is thus set at rest, and no steps based on inaccurate knowledge are rashly taken, and the matter perhaps bitterly regretted. By commencing the numbers of each successive year with distinctive numerals it would be possible to locate year of birth, etc. But it is needless to expatiate on the many and varied advantages which must accrue from such simplification of chaos. We have made a start in the right direction, let us continue. Introduction of order into symbols will bring about order in action. Would a machine fulfil its mission if one could never foretell what it would be doing next? Man, like a machine, should be regular, and not until we have gained mathematical precision as opposed to poetical license must we relax our efforts. Poetical license! The very name condemns the stuff. The ancients had an idea that education was meant to train the youthful mind to grapple with complex problems, and by reason of this perverted ideal the education of the mind to be overtaxed by the various efforts involved in locating Elizabeth street, in following a crooked instead of a straight road, or in remembering personal names arbitrarily given without set purpose. No wonder when the child attained to maturity his brain needed stimulants to enable it to do its work. Simplify life and you annihilate need for stimulants. Simplify life and you exterminate such unlovely passions as need a largo dance or a Parisian chef d'oeuvre to feed upon. Simplify life and you substitute plain contentment for disturbing unrest.—No. 37509 M.T.M., 9379 126th Street, corner of 37th Avenue, Edmonton, Alberta.

## TODAY WE CELEBRATE

### Exit, Summer! Autumnal Equinox Comes Tomorrow

This is the last day of the "good old summer-time." Tomorrow our gently falling sun will be making things hot for us for some time, will enter into constellation of the autumnal equinox, and the summer season will be over. This phenomenon constitutes the autumnal equinox in the northern hemisphere, while in the southern it marks the beginning of spring.

For all practical purposes, however, summer has already received its knock-out blow. The vacation season ended on the first of the month for all, and the few belated summer girls, and the scullery maids has become a fixture on the restaurant menus. The "Bachelors" have already begun their work of uplift and education. Reclining young-

sters with shining faces, scrubbed clean of the accumulation of real estate acquired during the glad vacation days, have trudged wearily into the slavery of desk and blackboard and books. The hairless boys, who up to a short time ago were self-confessed millionaires, are again faced the problem of making \$15 a week cover a multitude of necessities. The autumn costumes from Paris have long since arrived, and have brought fear and trembling to the hearts of the young men who have so long relied alone on the "fashions" of the day. The "silk hat" which blossomed forth in the summer as a peroxide blonde, has been transformed into a decided brunette, and has gone into the discard. Nature's equinoctial reminder that summer is over is not easily ignored.

The autumnal equinox marked the beginning of a new year for the Jewish people, who have been in Persia, Syria, Phoenicia, and Carthage. The Jews also began their civil year, but in their ecclesiastical reckoning the year dated from the vernal or spring equinox. When the French revolutionists considered a calendar, they decreed that the new era should begin on Sept. 22, 1792; the date of the autumnal equinox. The day of each succeeding year should begin at midnight of the day on which the autumnal equinox falls. The months were divided into three decads of ten days each, but to make the year of 365, five days were added to September. To "Leap Year" was added, and was called "the Year of Revolution." The first month of the year, beginning on the autumnal

## Are you interested in the next City FORT GEORGE?

Four years ago the strategic position of the old post of the H.B.Co. at the junction of the Fraser and Nechaco rivers was first brought prominently before the public through the press. Even yet few people fully realized the future in store for this central city of B.C.

With the change in trade routes which will come with the opening of the Panama Canal, Vancouver and Prince Rupert, the Pacific coast ports of Canada, within 450 and 465 miles by rail, who will dare to fix a limit to the growth and influence of a city to whom the topography of the country makes tributary all the vast areas of agricultural, timber and mineral land, north, south, east and west.

For investments now, before the rails are linked up, see or write the firm that has been years in the country.

(See Page 9)

equinox, was called Vendémiaire, or "Vintage," and the succeeding months were known as Brumaire, or "Foggy"; Pluvié, or "Steady"; Nivose, or "Snowy"; Pluvié, or "Rainy"; Ventose, or "Windy"; Germinal, or "Budding"; Floreal, or "Flowering"; Prairial, or "Pasture"; Messidor, or "Harvest"; Thermidor, or "Hot"; and Fructidor, or "Fruit."

Stormy weather often attends the autumnal equinox, and this has given rise to a general belief that the sun's passing of the equator is responsible for the "foul" weather. A theory not borne out by scientific investigation. Yet the past year has witnessed many terrible "equinoctial storms," so-called. In 1815, on Sept. 22, the North Atlantic coast was ravaged by what was long known as the "Great Storm." In 1866 a large part of France was inundated as a result of heavy rains. In 1875 the Gulf of Mexico was visited by a severe cyclone, and in the same year there were great storms in India. Millions were left homeless by a storm in China in September, 1887. Newfoundland and Nova Scotia have been visited by many severe storms during the latter part of September.

## SPORTOGRAPHY

Jack Sullivan, at 35.

Says He Is a Champion That ancient veteran of the prize ring, Jack (Twin) Sullivan, will celebrate his 35 birthday tomorrow, withstanding his disgraceful age, which entitles him to a soft seat in a clubber corner, the fiery old warhorse is still clamping at the bit and snoring defiance. Jack already owns one world's title—the "light heavy-weight champion" of the habitation.

### THE GAY WORLD.

Mr. and Mrs. McKinnery are staying for a short time at the Corcoran. Since their last visit to Edmonton they have spent the time travelling in Europe, visiting London, Paris, Berlin, Copenhagen, Australia and Japan. They are leaving Canada for South Africa, where they will remain for the winter.

The Misses Buchanan have taken rooms for the winter at No. 433 Thirtieth street.

Mr. and Mrs. Bower Campbell entertained the bridesmaids and groomsmen of the coming wedding, on Sunday evening at supper.

His Honor Judge Noel returned on Saturday from Athabasca Landing where he spent the week.

Mrs. H. M. E. Evans, of "Sylvanhurst," was the hostess of a luncheon on Friday in honor of her guests, Mr. and Mrs. Ponsonby, of London, England.

Mrs. Lorne York was the hostess of a tea on Saturday afternoon, at which Mrs. Secord was the guest of honor.

Miss Elmore Taylor entertained a theatre party on Friday evening in honor of Miss Nori Campbell.

Mrs. Secord received on Friday of last week in her home a number of friends, as she and her daughters and Mr. Richard Secord, have today for Montreal, sailing by the Empress of Britain for England, and from there to Paris, where they intend to spend the winter.

Greatest preparations are being made for the Charity Ball, which takes place on Thursday evening in the Empire Ball.

### Magic Wand Manner Opens Closed Doors

Woman Armed with True Courtesy Finds Life is Pretty Smooth Sailing—Everyone Can Be Gracious if They Only Try Hard Enough to Forget Themselves Sometimes and Think of Others.

If every woman were offered a magic wand guaranteed to open many difficult doors, do you think she would take it? Particularly if those difficult doors which it would open were very desirable doors? Doors she had long wanted to enter? Doors she had seen other women welcomed to, and herself shut out?

Well, there is such a wonder-working magic wand.

No one can give it to you, though. You must get it for yourself. Fortunately, you can get it. The main conditions are that you should realize your lack of it, and how valuable it would be. After that the road to possession of this magic wand is easy.

The magic wand I speak of is nothing more or less than the Gracious Manner.

And the doors it will unlock are social and business opportunities which, never, never in the wide world will be opened to the Ungracious Manner, nor even to the Indifferent Manner.

The woman who works, or the woman at home, who has the Gracious Manner, is the woman who is the most successful in life.

And the doors it will unlock are social and business opportunities which, never, never in the wide world will be opened to the Ungracious Manner, nor even to the Indifferent Manner.

Mrs. Arthur Archibald entertained a most successful party on Saturday afternoon at her home.

Mrs. Seoble was the hostess of a small tea on Saturday afternoon. Mrs. Ponsonby was guest of honor.

Madame Landi and her nephew, Baron Von Bombardier, of Paris, France, have taken apartments at 732 Twenty-first street.

Miss Constance Buck has issued cards for a vocal recital which will be held in the lecture hall of the First Presbyterian church on Friday, September 26.

Mrs. Bert Morris, formerly Miss Nisbet of Calgary, will receive for the first time since her marriage, on Tuesday afternoon from 4 to 6:30 at 735 Twenty-first street.

**IMPORTANT NOTICE.**  
The Empress management felt exceedingly sorry to discontinue its numerous patrons for not being able to show, as advertised, "The Mysteries of Paris," as Wednesday and Thursday of this week.

This attraction has caused such a tremendous success in Vancouver that they kept it for another week. However, "The Mysteries of Paris" will be exhibited Wednesday and Thursday of next week without fail.

### Local Ministers Refuse to Marry Couple in Theatre

Manager Gill of the Pantages Has Hard Time in Finding Minister Willing to Assist in Matrimonial Contest—Ceremony Finally Performed in Ruthenian Presbyterian Church.

His marriage, whose matrimonial contest lasted for several days at the Pantages last week, had an exciting time Saturday night in his attempt to have the marriage performed by a minister.

Mr. Morrison was pleased to be asked to perform the ceremony, but he was not willing to do so. He was, however, willing to perform the ceremony in the theatre.

# FRENCH EX-PRES. MAKES ATTACK ON POINCARÉ

Says He Owe Election to Reactionary Clerical Influence.

## CAMPAIGN ATTRACTS MUCH ATTENTION

Clemenceau Says Same Influence Seeks to Resume Diplomatic Relations With Vatican.

Paris, Sept. 22.—M. Georges Clemenceau passed the summer in writing letters to his paper L'Homme Libre, in which he maintained that President Poincaré owed his election to reactionary clerical influence. He is now trying to show that the same influence is seeking to establish a new concordat by resumption of diplomatic relations between France and the Vatican.

His campaign attracted little attention until this week, when M. Clemenceau published a circular issued by the minister of marine, permitting French warships, while in foreign waters, to observe Good Friday when they are in the company of fighting ships of other nations which recognize that day.

M. Clemenceau says he finds this circular the first active step toward a resumption of the Vatican by France. The circular, which was issued on August 9, passed without notice, until M. Clemenceau utilized it in this way. It only revives a similar order which was issued in 1896, which allowed the observance of Good Friday by French warships in foreign ports by the placing of the flag at half mast, inclining the yards at an acute angle to the masts and the firing of a gun at half hour intervals throughout the day.

The suppression of the anti-Vaticanism caused such observations to be prohibited after 1896, until the present circular revived the practice. It is said that the order was revived because of the inconvenience felt by commanders of French ships in making their non-participation in the observance of Good Friday in countries where it is observed as a national festival.

M. Clemenceau's articles on this subject have caused a request for a copy of which more will be heard when the present session of the French parliament opens. The Temps newspaper, in an editorial, said that the suppression of this uniform made the French appear to be lacking in religion and patriotism. It is said that the circular was issued as a result of the pressure exerted by the Vatican.

The circular, which was issued by the minister of marine, without consulting the other members of the cabinet. But the head of the navy department says the circular, which was issued after consultation with M. Poincaré, the minister for foreign affairs.

The method of financing in regard to the war was discussed at the commissioners' board meeting this morning, although it was not until the afternoon that the reading of a statement from Inspector Buck in which he called the attention of the commissioners to the fact that the appropriations for the new service building had been over expended to the extent of \$6,311.13 and other liabilities still outstanding.

The solution offered by Commissioner Harrison is that the accounts should be audited before being paid. This, he said, brings up the question of a controller. Under the present method he contended that it is impossible to control financing in such a manner as to make it possible to know just how much has been spent on every particular piece of work.

The mayor said that he had been endeavoring all year to get the bookkeeping system of the city organized properly, but that it was proving a very difficult matter. If the architect had done his duties he would have taken care of most of the extra items in the estimate. He said that he would like to see the mayor get down to business and take care of the extra items in the estimate.

Commissioner Chalmers suggested that the best arrangement would be to provide for the audit, which would automatically take care of all amounts which could not be foreseen when any particular piece of work is started, and for which a specified appropriation has been made.

A new requisition form is being prepared by the cost engineer for future use by all departments, both revenue and non-revenue, on which estimates will be submitted in future.

TRAINS COLLIDE; FOUR KILLED  
Street Cars Crash Into Each Other With Fatal Results; Both Motorcars Among the Dead.

New York, Sept. 22.—Four persons are dead and between 30 and 40 are reported injured as the result of a head-on collision between two street cars on the Long Island railroad near College Point, L. I., about 7 o'clock this morning.

The motorcars of both trains and one of the conductors and an unidentified man were killed.

# FROST REPORTED AT SEVERAL PLACES

At Pearson, Minn., 20 Degrees Were Registered—Cold Snap Does Little Damage to Crops.

Regina, Sask., Sept. 22.—After a 75 mile trip through the district yesterday it is conservatively estimated that 25 percent of the crop is threatened. Farmers are busy and have every available man in operation.

Brandon, Man., Sept. 22.—The first cold snap visited this district last night, the mercury going down to 23. Sunshine again bright this morning and the weather will be resumed with vigor. With moderate weather threshing will be completed this week. Only one day's work left in corn cutting at experimental farm.

Portage La Prairie, Man., Sept. 22.—This district was visited by the first frost of the season last night, though the maximum temperature was but 44, the thermometer during the night dropped to 24.

The light degrees of frost have played havoc with the gardens. Threshing outfits, which have been standing idle since the rain and wind storm of Thursday last, will probably resume operation by noon today. It is estimated that snow fell for half an hour at Rosedale yesterday morning.

Winnipeg, Sept. 22.—Winnipeg as well as the greater part of Manitoba has had its first frost of the season last night, and in many places the frost was sufficiently severe to badly damage garden crops and spraying areas remain unengaged. Fortunately all field crops were safe.

Thunder Bay, Ont., Sept. 22.—Frost registered in Winnipeg, nine in Brandon, eight in Portage La Prairie, 12 in Morden, 13 in Regina, 14 in Winnipeg, 15 in Brandon, 16 in Portage La Prairie, 17 in Morden, 18 in Regina, 19 in Winnipeg, 20 in Brandon, 21 in Portage La Prairie, 22 in Morden, 23 in Regina, 24 in Winnipeg, 25 in Brandon, 26 in Portage La Prairie, 27 in Morden, 28 in Regina, 29 in Winnipeg, 30 in Brandon, 31 in Portage La Prairie, 32 in Morden, 33 in Regina, 34 in Winnipeg, 35 in Brandon, 36 in Portage La Prairie, 37 in Morden, 38 in Regina, 39 in Winnipeg, 40 in Brandon, 41 in ## In Last Quarter Tigers Outplay Eskimos and Win

Edmonton Rugby Squad Carried Calgary Off Its Feet in First Half and Only by Better Physical Condition Was Tiger Team Enabled to Win.

There are just two things that account for the Eskimos loss of the rugby game Saturday to the Calgary Tigers. The game was lost because the Eskimos were in poorer physical condition than the Tigers and could not stand the mill. The second reason was that the Tiger team had the advantage of kicking. The Tigers won the game by a score 16 to 6. The score is not a fair indication of the respective playing ability of the two teams. Those who witnessed the game at Calgary are of the opinion that Edmonton could have defeated Calgary handily had the players been able to last out the game. Pearson's prowess fairly yanked the tail out of the famous "Eggs" during the first half of the game. They showed a superior brand of football and had the Cow Town fans sitting cold and glum on the bleachers. The first quarter ended with the score 1 to 0 in favor of Edmonton. At the end of the first half the Eskimos were still leading with the score 4 to 0 and with the game two quarters over the game was still a tie at 6 to 6. From then on the two things combined to finish the Edmonton team's chances for a victory. Those two things were physical condition and kicking.

There is no doubt that Coach White will endeavor from now on to re-enforce the weak points in his team and the first thing he will demand will probably be work, for that is necessary to proper physical condition but there are a few things that will help the coach to accomplish this end far more quickly and they are things over which he has no power. Those things are the shoddiness of equipment, beer, late hours and improper food. Perhaps every man on the team knows this already. He is now faced to face with the question: "Which do I want to go to in a winning team or to an enjoying life and doing everything under the calendar that a football player should not?"

In the first quarter of the game the Eskimos broke through the Calgary line for good gains. Stewart, Campbell, Gulen and Donahue did the most effective work. A sack netted them one point. It is reported that by a mistake in the calculation of the time this quarter went 12 minutes overtime. If this he true the loss of the game may be attributed to this very thing as 12 minutes prior to finish of the game it was anybody's game.

Edmonton's others scores were made by a drop kick goal by Yule and another safety later. Yule did consistent work at punting but was outkicked by Biele and Work.

Calgary did not carry the ball across the Edmonton goal and the work of the Edmonton line in this regard was splendid. All the points made by

## SNookER PLAYERS TO HAVE CONTEST

New Feature Added to Pool Tournament at Empire Parlors.

In connection with the pool tournament which is being played at the Empire pool parlors, and which is attracting so many lovers of the greatest of indoor games, a new contest is to be started which will probably be even more interesting. The new stunt is to be for the snooker players. It will not be an elimination contest, as in the tournament, but a series of a 240 set of clothes will be given each month for the highest score made during that month at snooker.

In order that a man playing with four or five others may have the same chance as when there are only two and playing, the rules of the contest provide that the score made must be multiplied by the number of players in the game.

Snooker, which is played on the English billiard table, is by far the most interesting game of pool invented, and it is rapidly gaining in popularity in Edmonton. A year or so ago there were only a few tables in town. No establishment had more than one table in its parlors. Now there are scores of them, and it is very difficult to get possession of a table in the evenings. The Empire parlors have installed eight snooker tables and they will all doubtless be kept busy evenings from now on.

Saturday night, in the pool tournament, Drexton defeated Kelly by a score of 60 to 45. Sack defeated Radlman, and the other contest scheduled to come off was postponed until tonight. There are several good contests booked for tonight.

## CHAMPION GOLFER OF U.S. IS OUIMET

Beating Vardon by Five Points Young American Captures Championship.

Brookline, Mass., Sept. 22.—Another laurel was added to America's list of victories in international sport here Saturday when Francis Ouimet, a youthful local amateur, won the nineteenth open championship tournament of the U. S. Golf association.

The winning was listed to an international plan, due to the sensational circumstances of the play and the calibre of the entrants whom Ouimet defeated during his four days' march to victory. The boy tealed the laurels in the first half of the championship round, tied with Harry Vardon and Champion England's professional, for the first place in the final round, then completely outplayed them today in the 48 hole extra round.

Ouimet won with a score of 72 strokes, two under par for one of the hardest courses in the country. Vardon finished five strokes behind Ouimet with 77. Ray took third place with 78.

The slender youth, just past his teens, outplayed and out-nerved not only Vardon and Ray in the play-off, a wonderful feat in itself, but succeeded in battling his way through the largest and most remarkable field of entrants that ever played for an American title. The lists contained 170 names, including, in addition to Vardon and Ray, those of Wildfire Reid, another well-known English player; Louis Tullier, a French professional of note; and a few high class amateurs and a host of unknown English and foreign professionals playing for United States and Canadian clubs.

Among those who struggled to gain to Ouimet's side after the victory was a little, plainly dressed woman whose hair was streaked with gray. She was baffled in the crush, but, persevering, she finally stood almost directly under the champion as the throng swirled and eddied about him. With his pushed back and with shining eyes, she looked up and called the one name "Francis." Ouimet glanced down and caught the sight of the little woman below him, tore his hands from his admirers, and rushing down, grasped her.

What she said was lost in the tumult of the cheering, but those near heard young Ouimet say: "Thank you mother, I'll be home soon."

Ray and Vardon were not forgotten. Ed Englishman was given a three times three before the parade started for the dressing quarters for the presentation of the medals and other prizes. During the ceremony both Ray and Vardon took the opportunity to praise Ouimet as a sportsman and golfer. They said that Ouimet had played the best golf that he had ever

## FRED MERKLE (LEFT) AND FRED SNOGRASS, TWO GIANT STARS.

New York, Sept. 22.—Now that it is a certainty that the Giants will represent the National league in the coming world's series, the fans are wondering if McGraw's men are going to repeat their heart-breaking performance of last year by crumpling at every critical period of the play. This uncertainty is doubtless one of the things which make the national "pastime" the absorbing one that it is. The two men in the Giants' camp who had to bear the onus of responsibility for last year's misadventure are Fred Merkle, first baseman, and Fred Snodgrass, one of the best outfielders in the game. It will be remembered that the latter muffed a fly ball during one of the games in Boston, which let in the deciding run for the Red Sox. In another game Merkle failed to go after a pop foul by Sawyer. This lapse cost the Giants the game. The fact that the same men pulled off plays of incredible brilliancy on other occasions during the series

did not help the result in the least. That those errors were the effect of nervousness and anxiety to win is doubtful, but Merkle and Snodgrass are both seasoned veterans now and should be able to hold themselves under control in even the most trying situations. But at long as baseball is played their wanted splendor in world's series and there will be others who will play far below their normal standard. It is a matter of temperament.

## AUSTRALIAN CRICKETERS EASILY BEAT VANCOUVER

Apparently Vancouver Team Not on Par with Edmonton and Calgary Teams.

Vancouver, Sept. 22.—The Australian cricketers, playing against Vancouver at Brockton point, Saturday, ran up a score of 165, defeating the local 15 who made 61 and 64 by an innings and 240 runs. McGarvey made a century and Crawford scored 95 before being sent back to the pavilion. In Vancouver's second innings these two members of the Australian team having unchanged, their respective averages 4.00 and 4.75. In the first innings Collins and Goff also had first averages.

Vancouver fielded well, and did not let much get past them. In their first inning Caldwell was top scorer with 19, being during the only other double score. In their second inning Ivamy played well and topped the score with 91. Umpires were L. T. Dwyll and H. Poole.

## B.C. BEATS OREGON AND WASHINGTON AT SHOOTING

Canadian Williamian Win Silver Trophy Presented by State of Washington

Vancouver, Sept. 22.—British Columbia on Saturday won the international rifle championship of the Pacific by defeating Oregon by 10 points, winning the silver trophy presented by the state of Washington, which was held in the contest. Scores for the last ranges, 600, 800 and 1,000 yards, totaled: British Columbia, 1,701; Oregon, 1,691; Washington, 1,608. Each of the three teams was composed of eight men.

British Columbia's were: Latta, Forest, Scriver, Hunter, Vardon, Wolford, Cayne and Carr.

## NEWARK WINE PENNANT.

Newark, Sept. 22.—Newark won the 1913 championship of the International league here Saturday by taking the Jersey City into camp for both games of the double-header, 2 to 1, and 4 to 0 in the second game, ending in the seventh inning by agreement. This is the first time Newark has won the pennant in this league.

## THE PERFECT EGYPTIAN CIGARETTE

# SALE OF LOTS AT PRINCE GEORGE BRITISH COLUMBIA

SITUATED at the confluence of the Fraser and Nechaco Rivers in Central British Columbia, 450 miles north-east of Vancouver, B.C., and 467 miles east of Prince Rupert, B.C., or midway between Prince Rupert and Edmonton, Alta., on the main line of the Grand Trunk Pacific Railway. By reason of its central location, Prince George will be the natural distributing point for the extensive territory comprised in the Pacific Province of the Dominion, and it has therefore long been the expectations of the general public that, upon the completion of the Grand Trunk Pacific Railway, Prince George will early become a large and important center.

Having purchased what was known as the Fort George Indian Reserve, No. 1, for the purpose of locating a townsite thereon, the Grand Trunk Pacific Development Company Limited has caused the same to be surveyed and platted and offer lots in this townsite for sale by public auction at Vancouver, British Columbia, Wednesday, September 17th, 1913, and at Edmonton, Alberta, Wednesday, September 24th, 1913.

The terms of this sale will be one-quarter cash and the balance payable in one, two and three years with six per cent. interest. For further particulars and plans apply to:

## WRESTLING BOUT GOES TO FORBES WHEN SMITH QUILTS

Scotch Lad, Though Lighter, Was Best Man By Long Odds.

### COMPELLED SMITH TO QUIT WITH FOOTHOLD

Smith Claimed Toe Hold, Which Was Barred, Had Been Applied—Referee and Spectators Say No.

Jack Forbes, lightweight wrestler of Scotland, was given the decision in his wrestling bout with Art Smith Saturday night, when Smith gave up after 15 minutes wrestling, during which time he was subjected to some pretty rough treatment at the hands of Forbes. Forbes showed far superior class to that of his opponent; in fact, Smith showed nothing at all except his ability to keep his shoulders from the mat. From the start he took the defensive, and only once, when he countered Forbes' half Nelson with an arm roll, did he make any attempt on the offensive. At first time his action was such a surprise that he almost succeeded in mauling his man.

Forbes, after working on Smith for 10 minutes, decided that a Smith was the heavier by 10 pounds, the only chance to turn him over lay through working on his legs. Accordingly, he secured a raised leg and foot hold, which he applied unmercifully, and it was only a matter of time until Smith would have had to give in. Smith claimed that Forbes was using the toe hold on him which had been barred by agreement, and the referee, Lee Meyers, cautioned Forbes twice to keep his hold down about the ankle. When Smith finally gave up and limped to his corner, he claimed a foul in that Forbes had used the toe hold. The referee ruled, however, that the toe hold had not been used, and Smith refused to continue the bout. The spectators were asked to vote on whether or not they approved the ruling of the referee, and by a good majority his ruling was sustained.

Forbes showed that he is a classy little wrestler, and if a fast man can be secured to go against him there will no doubt be much interest in the match. Once during the bout Forbes secured a leg and arm hold, and tossed Smith clearly over his head.

Two good preliminaries were pulled off in which Flynn defeated Neddo, and the semi-windup in which Matheson won from McCoy in two straight falls.

A match is being arranged between Forbes and Eugene Tremblay, the lightweight champion of the world, the bout to be held at the Thistle rink on October 27th.

Leo Myers, who refereed the main bout Saturday night, a Nebraska wrestler, who has met some good men, has issued a challenge to Forbes. He agrees to post \$100 side bet that he can throw Forbes twice in 15 minutes.

Forbes, when informed of this, said if Myers would post his money with any sport editor in the city he would cover it at once.

Providence and Baltimore—Saturday game postponed, rain.

## Permits Taken Out For \$65,000 Worth of Houses

Inspector's Office Had Busy Day Monday—1913 Building Record Promises to Keep up With Pace Set During Past Years—\$13,100 for South Side

On Monday exactly \$65,000 worth of building permits were taken out in Greater Edmonton. That means that on both sides of the river considerable building is anticipated this year, there being the construction program of 1913 will finish, up as bright and easy as any previous year. All the permits issued by Building Inspector Melvor are for the erection of dwellings. Not one permit calls for the construction of a business block. This is accounted for by the fact that in the early part of the year nearly all the permits were for blocks and stores, thus the construction during the spring and summer months have been of the heavy order. Of this total sum, \$13,100 represents the building activity on the south side of the river, while the remaining \$52,000 is for construction work on the north side. The largest permit issued for the old portion of the city, otherwise the north side, was given to S. F. Munson, which calls for the erection of a number of dwellings in Summerland, amounting to \$29,000.

# SUMMERLAND

A rapidly growing town (not incorporated) on 27th Street and the Interurban Street Railway Line.

## LOTS - \$275.00 - EACH TERMS:

\$10 Cash, \$5 per month, final payment in 28 months; or

\$25 Cash, \$25 every four months, final payment in 28 months; or

\$50 Cash, \$50 every six months, final payment in 28 months; or

\$75 Cash, balance in 12 and 28 months; or

\$150 Cash, balance in 28 months.

7 per cent. interest on any of the above terms, payable with the last payment. Corner lots \$75 extra. Size of lots, 35 feet by 124 feet.

On Sept. 6th, 1913, the first building material arrived in "Summerland." Now there are twenty houses, a store, restaurant, street car depot and four miles of sidewalks under construction.

**Come any day at two o'clock and have a free auto ride to see this new town. Any time of day by appointment**
